## COMPARING THE 2 TYPES OF GRADUATE EXAMS

---

A required test for students looking to earn their MBA in the US

Its purpose is to benefit business career minded individuals

It consists of 4 difficult sections designed to test Analytical Writing, Integrated, Verbal, and Quantitative Reasoning Skills

It gives options as to which sections of the test to complete first.

A required test for students looking to earn a masters degree in the US or UK

Its purpose is to give options to individuals seeking a graduate degree

It consists of 3 sections designed to test Analytical Writing, Verbal, and Quantitative skills

The Analytical Writing section comes first, and there are options for the remaining sections as to the order of completion
