

MATH TEACHERS

AND

STUDENTS

TOGETHER BUILD MATH CONFIDENCE

Bring forth the knowledge students seek to connect to Math

Use intuition as an important factor in recognizing emotions tied to Math learning

Allow students the freedom to use emotions to connect back to previous Math knowledge

Give students the opportunity to use prior knowledge to become better problem solvers

Use tools to help guide learning, gain knowledge, and connect to Math

Know that the freedoms to express emotions in Math learning is important in building Math skills

Understand emotions tied to Math learning and use those emotions to connect previous knowledge to knowledge gained

Use prior knowledge and steps to problem solving to connect to new knowledge
